### **VOICE POWER**

Do you fail to make an impact in business and social interactions, in spite of being excellent at what you do? Do you feel your voice lets you down at board meetings, interviews, client briefings or presentations?

**Voice power** is an experiential workshop, that teaches you techniques that outstanding actors, broadcasters, speakers and performers use to command attention and engage an audience through effective use of their body and voice - techniques that will ensure a competitive edge to any business communication/presentation.

### **OBJECTIVES**

The goal of this program is to help you discover the power of the voice as an effective communication tool

### **PROFILE OF PARTICIPANTS [Who Should Attend]**

Corporate executives, management students, public speakers, recent graduates, communicators, educators, trainers, professionals and those who want to enhance their voice and their professional and personal image would benefit from the workshop.

### **COURSE CONTENT**

An experiential workshop designed to equip participants with the necessary skills to speak with clarity, authority and ease. The workshop creates an awareness and empowers you to use the body and voice to its maximum potential while addressing an audience or in any communication situation. Dr. Nayak offers techniques, exercises and philosophies for developing and enhancing

- A charismatic and powerful stage/personal presence
- Power and flexibility of the breath for communication
- The voice of confidence, credibility and passion
- The correct tone of voice
- Voice modulation
- Winning the client
- Developing focus and clarity during communication
- Using the power and potential of the voice and body in business encounters and presentations
